

Martin Law at The Bicycle Factory™: Team Building and Giving Back

(Philadelphia, PA) – [Martin Law](#) staff participated in a team building workshop on Saturday, May 14 2016 that helped to benefit five children from the Boys & Girls club of Rehoboth Beach, DE. During the annual staff retreat, Martin Law participated in the Professional Team Building's event The Bicycle Factory™ in which staff members learned communication skills and worked together to build bikes that were then donated to children of the Boys & Girls club. Most of the participants in the workshop were not aware of the bike donation and found the experience to be truly rewarding.

This event was a continuation of Martin Law's philanthropy efforts headed up by a committee of staff members called "Martin Law Gives Back." Each month the committee chooses a different non-profit organization to either raise money, collect items such as food or toys, or volunteer their time.
